EXECUTIVE PROFILE

Commercial leader with 15+ years driving growth across luxury fashion and high-end textile in Europe and Asia — including six years as Commercial Director of **External Activities** at **Hermès Textile Division**, on the Business Unit Executive Committee. Proven builder of commercial functions, elite sales teams and premium client portfolios; equally strong on P&L rigor, margin and the creative-commercial bridge. Now completing a Global MBA in AI & Entrepreneurship, bringing a rare fusion of luxury operational excellence and next-generation technology. Above all, a lifelong passion for textile — its complexity, its materials and its makers — drives everything I do. Philosophy: *where heritage is the warp, and technology the weft.*
